Reasons For Allowance

1. Claims 1-19 and 22 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose an electron gun for a color cathode ray tube having a cathode emitting an electron beam, a control electrode having first hole regions, each one of the first hole regions including a first vertically elongated indented portion formed at an output side surface of said control electrode and including a first hole portion formed in the first vertically elongated indented portion, the electron beam passing through said control electrode, the first hole portion having an elongated shape; a screen electrode installed adjacent to said control electrode, said screen electrode having second hole regions; and a plurality of focusing electrodes sequentially installed from said screen electrode, said plurality of focusing electrodes including a final acceleration electrode forming a main lens of the electron gun as required in claim 1 or a plurality of focusing electrode forming a plurality of quadrupole lenses as required in claim 13; the plurality of focusing electrodes includes a final acceleration electrode forming a main lens as required in claim 18. The prior also lacks to support each one of the second hole regions including a second indented portion formed at an output side surface of the screen electrode and a second hole portion formed in the second indented portion as required in claims 5, 11 and 22 or establish plurality of focusing electrodes installed in an order manner related to a control and screen electrodes in that a fourth/additional focus electrode and fifth/next focusing electrodes forming a first quadrupole lens and a second quadrupole lens respectively as required in claims 14 and 19.
3. The remaining dependent claims are allowable for at least above reason.
